An exciting opportunity has become available within our growing Digital for a Senior Full Stack Developer to join the team. Reporting to a Technology Lead, you will work as part of a dynamic cross-functional team. You will assist with analysing complex business requirements, designing and delivering secure, operationally stable front-end web applications applying innovation and automation where applicable.

Our Digital team is working on some very interesting projects including a new customer self-service portal, integration with a brand-new billing solution, tools to enhance productivity of our back-end staff and uplifting our website experience using human-centered design practices.

If you are passionate about digital technologies, eager to learn new skills, enjoy solving complex business and customer problems and would like to be part of a growing organisation that offers career development options, we have some great opportunities for you!

**Responsibilities will include:**

- Developing the latest user-facing features using React.js
- Designing high quality, modern highly responsive web-based user interfaces
- Building reusable components and front-end libraries for future use
- Translating designs and wireframes into high-quality code
- Participate in refinement workshops with team members and business stakeholders, estimation sessions, technical design sessions and architecture walkthroughs

**To be successful you will have:**

- Significant experience using C# (5+ years)
- Experience with SQL database, Entity Framework and other .Net ORMs
- Experience using TypeScript, React, Redux/ GraphQL with server/api driven application workflow
- Experience in Azure or AWS
- Previous experience working in an Agile delivery team
- Experience working with the Domain Driven Design approach (desirable)
- Experience with ServiceStack and .Net Core (desirable)
- Experience writing testable quality code, Unit Testing Frameworks (xUnit for Backend and jest/testing-library for Frontend) [link removed]

**Working at Alinta Energy you will have access to a range of benefits, such as:**

- Flexible work options where you can work a combination of days from the office and from home
- Staff Energy Offer (where products are available)
- Employee Referral Bonus
- Salary Packaging options
- Full access to Headspace Application
- Salary continuance insurance
- Employee Assistance Program
- Purchased leave
- Community volunteer leave

Let's spread the positive energy together...

Alinta Energy is a **Circle Back Initiative** employer – we commit to respond to every applicant.

Click “APPLY” to submit your application.

*Please note that if your application progresses you will be required to complete background/pre-employment checks. These checks may include but are not limited to - right to work/immigration checks, reference checks, criminal background checks, checks, qualification checks and additional finance checks for finance related positions. Alinta Energy takes the safety and wellbeing of our people seriously. We require employees to be fully vaccinated against COVID-19 to be able to attend our workplaces*
